PROFILE

I'm a front-end developer passionate about creating beautiful and functional web applications.
I enjoy working with React, Tailwind CSS, and other modern tools.
I'm always eager to learn new skills and take on challenges.
In my free time, I like exploring design ideas and learning about trading.

WORK EXPERIENCE

2024 - PRESENT
- Although I recently graduated, I have practical experience in web development through various projects I've worked on.
- Designed and developed several websites and applications using React, Tailwind CSS, and modern front-end technologies.
- Completed hands-on projects, including a Todo app, an OLX-like website, and a Spotify-inspired UI.
- Gained experience in responsive design, user authentication, and integrating APIs like DummyJSON.
- Focused on creating functional, user-friendly, and visually appealing web solutions.

2025 - PRESENT
- Website Development: Built several responsive websites and applications using React and Tailwind CSS.
- Practical Projects: Worked on projects such as a Todo app, OLX-like platform, and Spotify-inspired UI, focusing on functionality, design, and user experience.
- API Integration: Successfully integrated APIs like DummyJSON to fetch and display dynamic data.
- Team Collaboration: Worked on group projects, improving teamwork and communication skills.
